CREDIT MUTUEL ASSET MANAGEMENT is a portfolio management company authorised in France under no. GP 97-138 and regulated by the AMF.

Effective date of the key information document: 31/12/2024

WHAT IS THIS PRODUCT?

TYPE OF INVESTMENT PRODUCT

UCITS established in the form of a mutual fund (fonds commun de placement)

DURATION OF THE UCI

This UCI was created for a period of 99 years, which may be extended under the conditions set out in the regulation.

OBJECTIVES

This UCITS is managed actively on a discretionary basis. Its management objective is to outperform its benchmark, the Barclays Euro Aggregate 3-5 year index (net of fees), while maintaining exposure to interest rate risk close to that of the index over the recommended investment horizon.

The index is used at closing price and expressed in euros, with coupons reinvested.

In order to achieve the management objective, the UCITS adopts an active management style in relation to a benchmark index in order to have a clear positioning in terms of the risk universe and performance objective while seeking to optimise the portfolio's risk/return ratio in relation to its index. The portfolio is constructed over the entire yield curve within the sensitivity range and consists of determining how, and to what extent, its structure will or will not differ from that of its benchmark index, based on the conclusions of the various market and risk analyses carried out by the management team. The management process is based first and foremost on a macroeconomic analysis, aimed at anticipating market trends based on an analysis of the global economic and geopolitical situation. This approach is then supplemented by a microeconomic analysis of issuers and an analysis of the various technical elements of the market, aimed at monitoring the multiple sources of added value of the fixed income markets in order to integrate them into the decision-making process. Management decisions relate in particular to the degree of exposure to interest rate risk, positioning on the curve, geographical allocation, the degree of exposure to credit risk resulting from sector allocation and the selection of issuers, and the selection of investment vehicles used.

Environmental, social and governance (ESG) criteria represent one element of the management, but their weight in the final decision is not defined upstream.

Securitisation instruments are used by the manager as an alternative to money market or bond products.

The UCITS undertakes to comply with the following net asset exposure ranges:

Between 0% and 10% on the equity markets, in all geographical areas, medium and large capitalisations and all sectors.

Between 90% and 200% in sovereign, public or private OECD fixed-income instruments, of any rating according to the analysis of the management company or that of the rating agencies. The UCITS may be exposed to speculative or unrated fixed-income instruments (maximum 15%), securitisation instruments (maximum 30%) and eurozone instruments (maximum 200%). The range of sensitivity of the UCITS is between 0 and 5.

Between 0% and 20% in convertible bonds.

Up to 10% of net assets in foreign exchange risk.

It may also invest in: - financial futures or options, securities with embedded derivatives used for hedging and/or exposure to equity, interest rate, credit and foreign exchange risks. The indicative leverage is 100%.

- temporary purchase and sale of securities:

Allocation of distributable amounts:Capitalisation

Subscription and redemption conditions Subscription and redemption orders are centralised at 10.00 each business day and executed on the basis of the net asset value on the given day. The net asset value is calculated each business day on the basis of closing prices on the exchange, with the exception of days on which the Paris stock exchange is closed (Euronext SA calendar).

TARGETED RETAIL INVESTORS

This UCITS is intended for investors seeking a medium-term investment period consistent with that of the UCI. It is intended for investors with at least basic knowledge of financial products and markets, who accept a risk of capital loss.

The UCI is not open to residents of the United States of America/US Person. For more information, please refer to the glossary available on the Crédit Mutuel Asset Management website.

The objective of this UCITS is capital growth. People who wish to invest should contact their financial advisor who will help assess investment solutions in line with their objectives, knowledge and experience of financial markets, assets and risk sensitivity. The advisor will also present the potential risks.

USEFUL INFORMATION

Name of custodian: BANQUE FEDERATIVE DU CREDIT MUTUEL

The Fund's prospectus and the latest annual and interim reports will be sent free of charge within eight business days upon written request to CREDIT MUTUEL ASSET MANAGEMENT, 128 Bd Raspail – 75006 PARIS, and are available on the website www.creditmutuel-am.eu.

The net asset value is available from the management company.

For more information, please refer to the "Other relevant information" section of the document.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The risk indicator assumes that you keep this UCITS for a period of more than three years

The synthetic risk indicator makes it possible to assess the level of risk of this UCITS compared to others. It indicates the likelihood of this UCITS incurring losses in the event of market developments or our inability to pay you.

We have classified this UCITS in risk class 2 out of 7, which is a low risk class. In other words, the potential losses linked to the future performance of this UCITS are low and, if the situation were to deteriorate on the markets, it is very unlikely that the net asset value of the UCITS would be affected.

The following risks may cause the net asset value to fall: risk linked to the impact of techniques such as derivatives, speculative credit risk. For more information, please refer to the risk profile in the prospectus.

This UCITS is not protected from market fluctuations, and you may therefore lose all or part of your investment.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but not necessarily all the fees payable to your advisor or distributor.

These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

What you get out of this product depends on future market performance. The future development of the market cannot be accurately predicted.

The adverse, intermediate and favourable scenarios presented represent examples using the best and worst performances, as well as the average performance of the product, calculated over a minimum of 10 years of data. Markets could perform very differently in the future. The stress scenario shows the potential returns you may obtain in extreme market situations.

Recommended investment period: 3 years Investment example: €10,000		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no guaranteed minimum return. You may lose all or part of your investment.		
Tensions	What you could get after costs are deducted	€8,550	€8,640
	Average annual return	-14.50%	-4.80%
Adverse	What you could get after costs are deducted	€8,930	€8,850
	Average annual return	-10.70%	-4.00%
Intermediate	What you could get after costs are deducted	€9,940	€9,990
	Average annual return	-0.60%	0.00%
Favourable	What you could get after costs are deducted	€10,450	€10,550
	Average annual return	4.50%	1.80%

This type of adverse scenario has occurred for an investment between: 02/2020 and 02/2023.

This type of intermediate scenario has occurred for an investment between: 08/2015 and 08/2018.

This type of favourable scenario has occurred for an investment between: 01/2014 and 01/2017.

WHAT HAPPENS IF CREDIT MUTUEL ASSET MANAGEMENT IS UNABLE TO MAKE THE PAYMENTS?

The product is a co-ownership of financial instruments and deposits separate from the portfolio management company. In the event of defaulting by this latter, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated by the legal separation of the depositary's assets from those of the product.

WHAT WILL THIS INVESTMENT COST ME?

You may be asked to pay additional costs by the person selling or advising you about this UCITS. If so, this person will inform you about these costs and show you the impact of all costs on your investment.

COSTS OVER TIME

The tables show the amounts deducted from your investment to cover the different types of costs. These amounts depend on the amount you invest, how long you hold the product and how well the product performed. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have made the following assumptions:

- that during the first year you would get back the amount you invested (annual return of 0%) and for the other holding periods, the product evolves as indicated in the intermediate scenario.
- €10,000 is invested.

Investment: €10,000	If you exit after 1 year	If you exit after 3 years
Total costs	€147	€244
Cost impact*	1.50%	0.80%

(*) It shows how costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is expected to be 0.80% before costs and 0.00% after costs.

We may share the costs with the person who sells you this UCITS in order to cover the services they provide to you. This person will inform you of the amount.

These figures include the maximum distribution costs that the person selling the product can charge you (1.00% of the amount invested/€100). This person will inform you of the actual distribution costs.

COST COMPOSITION

One-off entry or exit costs		If you exit after 1 year
Entry cost	Maximum 1.00% of the amount you pay at the time of entry into the investment, not including the distribution costs for your product. The person selling you the product will be able to tell you the actual costs.	up to €100
Exit cost	We do not charge an exit fee for this product.	€0

Recurrent costs [collected annually].		
Management fees and other administrative and operating expenses	0.40% of the value of your investment per year. The percentage shown is based on the previous year's fees.	€42
Transaction costs	0.10% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on how much we buy and sell.	€6
Incidental costs collected under certain conditions		
Performance fees and incentive fees	There are no performance-related fees for this product.	€0

HOW LONG SHOULD I KEEP MY INVESTMENT AND CAN I WITHDRAW MONEY EARLY?

RECOMMENDED HOLDING PERIOD: at least three years

There is no minimum holding period for this UCITS, but a recommended holding period that has been calculated in line with the fund's investment objectives. You will therefore be able to request redemption of your units before the end of the recommended holding period without having to pay any compensation. However, the fund's performance may be impacted.

This product uses a redemption cap mechanism and/or an adjusted net asset value mechanism, the provisions of which are set out in its prospectus.

HOW CAN I MAKE A COMPLAINT?

For any complaint concerning this financial product, a letter may be sent by post to CREDIT MUTUEL ASSET MANAGEMENT, Support Functions Department, 128 Bd Raspail – 75006 PARIS, or by email to the following address: amweb@creditmutuel.fr. For more information, please consult the complaints handling section at the following address: www.creditmutuel-am.eu/fr/actualites-reglementaires/traitements-des-reclamations.html.

OTHER RELEVANT INFORMATION

Information on the Fund's past performance as well as calculations of past performance scenarios are available from the Fund's summary sheet on the website www.creditmutuel-am.eu.

Where this product is used as a unit-linked carrier of a life insurance or capitalisation contract, additional information on this contract, such as the costs of the contract, which are not included in the costs set out in this document, the contract in the event of a claim and what happens in the event of the insurance company's default, is set out in the Key Investor Information Document for this contract which must be provided by your insurer or broker or other insurance intermediary in accordance with their legal obligations.

CREDIT MUTUEL ASSET MANAGEMENT may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the UCI prospectus.
