This UCITS is authorised in France and regulated by the French Financial Markets Authority (AMF). The AMF is responsible for monitoring CREDIT MUTUEL ASSET MANAGEMENT with regard to this key information document. CREDIT MUTUEL ASSET MANAGEMENT is a portfolio management company authorised in France under no. GP 97-138 and regulated by the AMF.

Effective date of the key information document: 31/12/2024

WHAT IS THIS PRODUCT?

TYPE OF INVESTMENT PRODUCT

UCITS in the form of an open-ended investment company with variable capital (SICAV)

This key information document describes a sub-fund of CM-AM SICAV. The prospectus of the UCITS and the periodic reports are prepared for all the sub-funds of CM-AM SICAV. The assets and liabilities of the various sub-funds are segregated. Therefore, you will not be able to exchange the units/shares that you hold in this sub-fund for the shares of another sub-fund of CM-AM SICAV.

DURATION OF THE UCI

This UCI was created for a period of 99 years, which may be extended under the conditions provided for in the articles of association.

OBJECTIVES

This UCITS is managed actively and on a discretionary basis in accordance with a qualitative non-financial filter in accordance with the policy implemented by Crédit Mutuel Asset Management and in compliance with the requirements of the GREENFIN label. It is not managed with reference to an index. Its management objective is to deliver a performance net of fees linked to the evolution of the green bond market over the recommended investment period.

The management strategy mainly consists of establishing a universe of targeted securities using a non-financial process supplemented by a financial analysis. A "green" bond is a bond issue launched by a company, an international organisation, a local authority or a state on the financial markets to finance a project or activity with an environmental benefit such as adaptation to climate change, sustainable water management, sustainable management of natural resources and the conservation of biodiversity. It is qualified as such by its issuer, which must, after its issue, put in place activity reports enabling the implementation of these projects to be monitored. Based on this set declared by the issuers, the issues and the projects financed will be analysed according to the following process, consisting of three stages:

1. Non-financial analysis:

1. Exclusion filter: The management team excludes investments in companies whose revenues or revenues are linked to activities such as the exploration, production and exploitation of fossil fuels and the entire nuclear sector, storage and landfill sites without the capture of greenhouse gases. The exclusion conditions are set out in the prospectus.

2. Filter applied to the issue (rating scale: 1 to 100): The green bond issued is analysed according to the four pillars: the existence of a green project, the process for evaluating and selecting green projects, the management of the bond issue proceeds and regular reporting. These defined characteristics comply with the best practice guide for issuing a Green Bond as defined by the Green Bond Principles. The Green Bond Principles may change over time. The regulatory emissions documents specify the criteria and methodologies used to make investments in eligible projects. The manager may rely on data provided by environmental and societal agencies as well as on its own analysis.

3. Filter applied to the issuer (rating scale: 1 to 100): The issuer is analysed on three pillars: ESG performance, contribution to the environmental transition, management of ESG controversy risks.

4. Rating: Based on these analyses, a non-financial rating is assigned on a scale of 1 to 100. The overall rating is 70% for the issue and 30% for the issuer. Only securities with an overall rating greater than or equal to 50 will be included in the investment universe.

2. Financial analysis: Securities are analysed financially in order to keep only the ones where the quality has been clearly identified. This universe constitutes the list of securities which are eligible for investment.

3. Portfolio construction: The portfolio is constructed across the entire yield curve within the sensitivity range based on the conclusions of the various market and risk analyses conducted by the management team.

The selection processes are detailed in the "Investment strategy" section of the prospectus. Green bonds represent a minimum investment of 85% of net assets at all times. This selection of underlying securities may generate an absence of consistency between the assets in terms of management approaches, criteria or techniques. Due to the financial analysis, green bonds with the best non-financial ratings are not automatically included in the portfolio construction.

The UCITS undertakes to comply with the following net asset exposure ranges:

Between 0% and 200% in sovereign, public and private fixed income instruments, from all geographical regions (including emerging countries), of all ratings according to the analysis of the management company or that of the rating agencies, or unrated. The UCITS may be exposed to speculative interest rate instruments (20% maximum).

The range of sensitivity for the UCITS to interest rates is between 0 and +10.

Between 0% and 20% in convertible bonds

Between 0% and 10% on equity markets in all geographical areas (including emerging countries), all market capitalisations and all sectors. The UCITS will not hold shares directly.

Up to 20% of net assets at foreign exchange risk.

It may also invest in:

- financial futures or options and securities with embedded derivatives used for hedging and/or exposure to equity, interest rate, credit and foreign exchange risks. The indicative leverage is 100%.
- temporary purchase and sale of securities:

Allocation of distributable amounts: Capitalisation

Subscription/redemption conditions: Subscription and redemption orders are centralised every day at 9.00 and executed on the basis of the next net asset value calculated of the day. The net asset value is calculated daily, based on the closing price on the stock exchange, with the exception of public holidays in France and days on which the Paris stock exchange is closed (Euronext SA calendar).

TARGETED RETAIL INVESTORS

This UCITS is intended for investors seeking a medium-term investment period consistent with that of the UCI. It is intended for investors with at least basic knowledge of financial products and markets, who accept a risk of capital loss. The UCI is not open to residents of the United States of America/US Person. For more information, please refer to the glossary available on the Crédit Mutuel Asset Management website.

The objective of this UCITS is to achieve capital growth while incorporating non-financial criteria into its management process. People who wish to invest should contact their financial advisor who will help assess investment solutions in line with their objectives, knowledge and experience of financial markets, assets and risk sensitivity. The advisor will also present the potential risks.

USEFUL INFORMATION

Name of custodian: BANQUE FEDERATIVE DU CREDIT MUTUEL

The Fund's prospectus and the latest annual and interim reports will be sent free of charge within eight business days upon written request to CREDIT MUTUEL ASSET MANAGEMENT, 128 Bd Raspail – 75006 PARIS, and are available on the website www.creditmutuel-am.eu.

The net asset value is available from the management company.

For more information, please refer to the "Other relevant information" section of the document.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The risk indicator assumes that you keep this UCITS for a period of more than three years

The synthetic risk indicator makes it possible to assess the level of risk of this UCITS compared to others. It indicates the likelihood of this UCITS incurring losses in the event of market developments or our inability to pay you.

We have classified this UCITS in risk class 3 out of 7, which is a low to medium risk class. In other words, the potential losses linked to the future performance of this UCITS are at a low to medium level and, if the situation were to deteriorate on the markets, it is unlikely that the net asset value of the UCITS would be affected.

The following risks may cause the net asset value to fall: counterparty risk, liquidity risk, speculative credit risk, risk linked to the impact of techniques such as derivatives. For more information, please refer to the risk profile in the prospectus.

This UCITS is not protected from market fluctuations, and you may therefore lose all or part of your investment.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but not necessarily all the fees payable to your advisor or distributor.

These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

What you get out of this product depends on future market performance. The future development of the market cannot be accurately predicted.

The adverse, intermediate and favourable scenarios presented represent examples using the best and worst performances, as well as the average performance of the product, calculated over a minimum of 10 years of data. Markets could perform very differently in the future. The stress scenario shows the potential returns you may obtain in extreme market situations.

Recommended investment period: 3 years Investment example: €10,000		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no guaranteed minimum return. You may lose all or part of your investment.		
Tensions	What you could get after costs are deducted	€7,860	€7,890
	Average annual return	-21.44%	-7.60%
Adverse	What you could get after costs are deducted	€8,320	€8,220
	Average annual return	-16.83%	-6.33%
Intermediate	What you could get after costs are deducted	€9,910	€9,970
	Average annual return	-0.92%	-0.10%
Favourable	What you could get after costs are deducted	€10,610	€10,830
	Average annual return	6.05%	2.71%

This type of adverse scenario has occurred for an investment between: 02/2020 and 02/2023.

This type of intermediate scenario has occurred for an investment between: 08/2016 and 08/2019.

This type of favourable scenario has occurred for an investment between: 04/2014 and 04/2017.

WHAT HAPPENS IF CREDIT MUTUEL ASSET MANAGEMENT IS UNABLE TO MAKE THE PAYMENTS?

The product is constituted as a separate entity from CREDIT MUTUEL ASSET MANAGEMENT. In the event of a defaulting on the part of CREDIT MUTUEL ASSET MANAGEMENT, the assets of the product held by the custodian will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated by the legal separation of the depositary's assets from those of the product.

WHAT WILL THIS INVESTMENT COST ME?

You may be asked to pay additional costs by the person selling or advising you about this UCITS. If so, this person will inform you about these costs and show you the impact of all costs on your investment.

COSTS OVER TIME

The tables show the amounts deducted from your investment to cover the different types of costs. These amounts depend on the amount you invest, how long you hold the product and how well the product performed. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have made the following assumptions:

- that during the first year you would get back the amount you invested (annual return of 0%) and for the other holding periods, the product evolves as indicated in the intermediate scenario.
- €10,000 is invested.

Investment: €10,000	If you exit after 1 year	If you exit after 3 years
Total costs	€133	€199
Cost impact*	1.33%	0.66%

(*) It shows how costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is expected to be 0.56% before costs and -0.10% after costs.

We may share the costs with the person who sells you this UCITS in order to cover the services they provide to you. This person will inform you of the amount.

These figures include the maximum distribution costs that the person selling the product can charge you (1.00% of the amount invested/€100). This person will inform you of the actual distribution costs.

COST COMPOSITION

One-off entry or exit costs		If you exit after 1 year
Entry cost	Maximum 1.00% of the amount you pay at the time of entry into the investment, not including the distribution costs for your product. The person selling you the product will be able to tell you the actual costs.	up to €100
Exit cost	We do not charge an exit fee for this product.	€0
Recurrent costs [collected annually].		
Management fees and other administrative and operating expenses	0.32% of the value of your investment per year. The percentage shown is based on the previous year's fees.	€32
Transaction costs	0.01% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on how much we buy and sell.	€1
Incidental costs collected under certain conditions		
Performance fees and incentive fees	There are no performance-related fees for this product.	€0

HOW LONG SHOULD I KEEP MY INVESTMENT AND CAN I WITHDRAW MONEY EARLY?

RECOMMENDED HOLDING PERIOD: at least three years

There is no minimum holding period for this UCITS, but a recommended holding period that has been calculated in line with the fund's investment objectives. You will therefore be able to request redemption of your units before the end of the recommended holding period without having to pay any compensation. However, the fund's performance may be impacted.

This product uses a redemption cap mechanism and/or an adjusted net asset value mechanism, the provisions of which are set out in its prospectus.

HOW CAN I MAKE A COMPLAINT?

For any complaint concerning this financial product, a letter may be sent by post to CREDIT MUTUEL ASSET MANAGEMENT, Support Functions Department, 128 Bd Raspail – 75006 PARIS, or by email to the following address: amweb@creditmutuel.fr. For more information, please consult the complaints handling section at the following address: www.creditmutuel-am.eu/fr/actualites-reglementaires/traitements-des-reclamations.html.

OTHER RELEVANT INFORMATION

Information on the Fund's past performance as well as calculations of past performance scenarios are available from the Fund's summary sheet on the website www.creditmutuel-am.eu.

The UCITS has been awarded the GREENFIN label.

Where this product is used as a unit-linked carrier of a life insurance or capitalisation contract, additional information on this contract, such as the costs of the contract, which are not included in the costs set out in this document, the contact in the event of a claim and what happens in the event of the insurance company's default, is set out in the Key Investor Information Document for this contract which must be provided by your insurer or broker or other insurance intermediary in accordance with their legal obligations.

CREDIT MUTUEL ASSET MANAGEMENT may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the UCI prospectus.
