Investment strategy

The objective of the Fund, classified as "Bonds and other international debt instruments", is to outperform (net of fees) bonds issued by the French Government denominated in EUR maturing in 2025, over the recommended investment period of 8 years from the launch date of the Fund until 31/12/2025. The potential profitability of the Fund comes from the value of the accrued coupons of the bonds in the portfolio and the variations in capital due to the fluctuation in interest rates and credit spreads.
