The general meeting of shareholders takes place in Luxembourg at the registered office of the Fund, annually, on the last Friday in April (or the next following business day if such a day is not a business day in Luxembourg). Notice of the meeting is sent by post to each registered shareholder, at least 8 days before the date of the meeting, to establish the meeting agenda, quorum, and majority required in accordance with the provisions of the Luxembourg law of 10 August 1915, on commercial companies, as amended.

The Board of Directors of the Fund does not intend to recommend the payment of any cash dividend at this time. Any net investment income and any net realized and unrealized capital gains will be accumulated by the Fund and used to increase the Net Asset Value per Share. The shareholders of the Fund may, however, at a general meeting of shareholders, resolve to declare a cash or stock dividend within the limits of applicable Luxembourg law.

The Net Asset Value per Share is expressed in the currency of the relevant class, calculated daily and published regularly via media as the Board of Directors of the Fund may from time to time determine.

General Information (continued)

The Fund is registered at the trade and companies register of Luxembourg (*Registre de Commerce et des Sociétés*) under number B 55679.

The list of the Sub-Funds of the Fund managed by the Management Company may be obtained, with a simple written request, at the registered office of the Management Company.

A detailed schedule of portfolio investments showing the movement of the investments in each Sub-Fund is available free of charge upon request at the registered office of the Fund and at the office of the Representative agents.

Director's Report to Shareholders

Introduction

The Board of Directors (“Board”) of Alger SICAV (the “Fund”) submit their semi-annual report and the unaudited financial statements for the six-month period ended 30 June 2022 (the “Reporting Period”).

About the Fund

The Fund is a company organized as a “*société anonyme*” qualifying as a “*société d'investissement à capital variable*” under the laws of the Grand Duchy of Luxembourg, which comprises several Sub-Funds. The Fund further qualifies as an Undertaking for Collective Investment in Transferable Securities under Part I of the Luxembourg law dated 17 December 2010 concerning undertakings for collective investment, as may be amended from time to time.

The investment activities of the Fund are controlled by the Board and through La Française Asset Management (the “Management Company”). The Management Company, acting on behalf of the Fund, has selected Alger Management, Ltd. to act as the Fund’s portfolio manager (the “Portfolio Manager”). The Portfolio Manager has sub-delegated these functions to Fred Alger Management, LLC and Weatherbie Capital, LLC (each a “Sub-Portfolio Manager”).

The Fund is designed to provide an opportunity for investors to take advantage of the professional investment expertise of the Portfolio Manager, the Sub-Portfolio Managers, and their affiliates. The Fund is currently comprised of seven Sub-Funds, Alger SICAV - Alger American Asset Growth Fund (“Alger American Asset Growth Fund”), Alger SICAV - Alger Small Cap Focus Fund (“Alger Small Cap Focus Fund”), Alger SICAV - Alger Dynamic Opportunities Fund (“Alger Dynamic Opportunities Fund”), Alger SICAV - Alger Emerging Markets Fund (“Alger Emerging Markets Fund”), Alger SICAV – Alger Weatherbie Specialized Growth Fund (“Alger Weatherbie Specialized Growth Fund”), Alger SICAV – Alger Focus Equity Fund (“Alger Focus Equity Fund”) and Alger SICAV – Alger Mid Cap Focus Fund (“Alger Mid Cap Focus Fund”) (each, a “Sub-Fund,” collectively, the “Sub-Funds”).

The Fund is an “open-ended” investment vehicle which redeems its shares at the request of its shareholders on a daily basis at a price based on the net asset value of each Sub-Fund.

Role & Responsibility of the Board

The Board is responsible for the Fund’s overall investment policy and for ensuring that the Fund is managed in a manner consistent with its objectives and policies. The Board has delegated certain of its duties to the Management Company, which, in turn, has delegated certain of its functions to the Portfolio Manager (who has delegated certain of its functions to the Sub-Portfolio Managers) and State Street Bank International GmbH, Luxembourg Branch (in its role as administrative agent, depositary, domiciliary and paying agent and registrar and transfer agent). The members of the Board (each a “Director”) are elected by the shareholders at each annual general meeting of shareholders for a period ending on the next annual general meeting, provided that any Director

Director's Report to Shareholders (continued)

may be removed, with or without cause, and/or replaced at any time, by resolution adopted by the shareholders.

*Independent Director

Meeting Attendance

The sole meeting of the Board that took place during the Reporting Period was attended by all Directors, either in person or telephonically.

Board Compensation

The Independent Director is paid a fixed annual remuneration of \$20,000. The Board believes the remuneration of the Independent Director reflects his responsibilities and experience and is fair given the size and complexity of the Fund. The remuneration of the Directors is approved annually by the shareholders at the Annual General Meeting of shareholders. There was no change to the Director remuneration proposed during the Annual General Meeting of 2022.

The Fund's Directors are entitled to be reimbursed for their reasonable out-of-pocket expenses, including reasonable expenses of attending and returning from meetings of the Board or general meetings of the Fund; any fees or other remuneration payable to the Directors must be approved by the shareholders of the Fund at a general meeting of shareholders.

Disclosure of Directors' Interests

None of the Directors holds shares of the Fund or hold material interests in any major service providers or counterparties to the Fund.

Director's Report to Shareholders (continued)

Board Evaluation

The ALFI Code of Conduct for Luxembourg Investment Funds, a set of principles that the Association of the Luxembourg Fund Industry recommends that all UCITS adopt, mandates that the Board of the Fund complete a self-evaluation on an annual basis. The Fund adopted this Code of Conduct in 2017, and each year the Board completes a self-assessment of the Board's performance under the ALFI Code of Conduct.

Financial Information

The Board is responsible for the preparation and fair presentation of the Fund's financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements and for such internal controls as the Board determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The Board considers that the annual report and accounts, taken as a whole, are fair, balanced, and understandable, and provide the information necessary for shareholders to assess the company's position and performance, business model, and strategy.

General Meetings of Shareholders

The 2022 Annual General Meeting of shareholders was held on 29 April 2022 in Luxembourg solely by proxy in accordance with regulatory measures which were instituted in response to the COVID-19 global pandemic. During the meeting, the shareholders:

- approved the audited financial statements of the Fund for the fiscal year ended 31 December 2021 and carry forward the net results of the fiscal year ended 31 December 2021;
- discharged the directors with respect to the performance of their duties for the fiscal year ended 31 December 2021;
- re-elected Mr. Roger P. Cheever, Mr. Daniel C. Chung and Mr. Hal Liebes, as directors until the annual general meeting to be held in 2023 or until their successors are appointed;
- re-appointed Deloitte Audit S.à r.l. as the independent auditor (réviseur d'entreprises agréé) of the Fund until the next annual general meeting of shareholders to be held in 2023 or until their successors are appointed; and
- renewed the director's fees of Roger P. Cheever for his mandate until the next annual general meeting of shareholders to be held in 2023.

No other meetings of shareholders were held during the Reporting Period.

Future Annual General Meetings of the shareholders of the Fund will be held in Luxembourg at the Fund's registered office on the last Friday in April of each year (or if such day is not a business day in Luxembourg, on the next following business day in Luxembourg). Other general meetings

Director's Report to Shareholders (continued)

of shareholders may be held at such time and place as are indicated in the notices of such meetings. Notices of general meetings and other notices to shareholders will be sent to shareholders at their addresses appearing in the register of shareholders and may, in addition, be published in such newspapers as the Board may determine. Notices will specify the place and time of the meeting, the agenda, the conditions of admission, and the quorum and voting requirements.

At all general meetings of shareholders, shareholders will be entitled to one vote for each full share held, which votes may be cast in person or by proxy. Fractional shares will not be entitled to any voting rights.

Communications with shareholders during the Reporting Period

The Fund did not distribute any notifications to shareholders during the Reporting Period.

Activities & Outlook

A discussion of the performance of the Fund and general market conditions can be found in the Unaudited Semi-Annual Report as of 30 June 2022, beginning on page 14.

Removal of Purchase Restrictions on Class A Shares of Alger Small Cap Focus Fund

During the Reporting Period, the restriction limiting the acquisition of Class A Shares of Alger Small Cap Focus Fund to existing investors only was removed. Class A Shares of Alger Small Cap Focus Fund may currently be acquired by both new and existing investors.

Launch of Alger Small Cap Focus Fund Class G Shares

During the Reporting Period, Class G Shares of the Alger Small Cap Focus Fund were launched with a management fee of 0.75% and an expense cap of 0.90%.

Revisions to Management Fees and Expense Cap of Alger Mid Cap Focus Fund Class G Shares

During the Reporting Period, the management fee applicable to Alger Mid Cap Focus Fund Class G Shares was revised from 0.70% to 0.75%, and the expense cap was revised from 0.89% to 0.90%.

Revisions to Certain Timing Provisions Related to the Application and Payment for Fund Shares and the Redemption of Fund Shares

During the Reporting Period, certain timing provisions related to the application and payment for Fund shares and the redemption of Fund shares were revised. Effective as of 1 May 2022, payment for any Fund shares subscribed is generally due no later than the business day after the applicable valuation date, instead of the previous three business days. Additionally, effective as of 1 May 2022, payment by wire, upon request of a shareholder, will be initiated in U.S. Dollars or Euros,

Director's Report to Shareholders (continued)

as the case may be, generally on the business day following the valuation date as of which the shares are to be redeemed (instead of the previous five business days), unless the shareholder's payment of the offering price for such shares has not cleared, the right of revocation in relation to direct debits has not expired or redemption is suspended or payment delayed under the circumstances contemplated by the articles of incorporation.

Manager's Report to Shareholders

Dear Shareholders,

Many Investors Shun Powerful Wealth Creator

In 1924, economist John Maynard Keynes wrote that companies that reinvest profits can create “an element of compound interest operating in favour of a sound industrial investment.” At Alger, we believe reinvesting profits and producing compounding earnings growth is a powerful wealth creator. To that end, we seek companies that we believe have strong potential for compounding earnings growth, and we seek to avoid cyclical companies, including “short-duration” companies, or businesses with high current earnings that return most of their profits to shareholders. In most instances, these companies, in our view, have little or no potential for future long-term earnings growth.

As Warren Buffett has observed, investors “occasionally do crazy things,” which can create opportunities for investors who “disregard mob fears or enthusiasms...and focus on a few simple fundamentals.” We believe recent concerns about interest rates, inflation and valuations have caused many investors to act irrationally by focusing on cyclical short-duration companies while shunning the “sound industrial investment” identified by Keynes. Some of these same investors are so focused on current cash flows or income that they may be overlooking the potential for companies that are gaining market share at very fast rates but have not yet scaled their businesses to exhibit strong profitability.

Setting the Stage for a Difficult Six-Month Period

The recent trend of investors rejecting the appeal of long-term earnings growth, in our view, played a major role in the disappointing Fund performance during the fiscal six-month period ended 30 June 2022. The fiscal period included a dramatic rotation by many investors who sought instant gratification by favoring companies with high current earnings. This rotation was initially fueled by rising interest rates, causing investors to question whether equity valuations were too high and has more recently been propelled by risk aversion and recession fears.

These concerns were supported by the following developments:

- Rising interest rates on the back of inflation fears.
- Data appeared to validate inflation concerns. After hitting a 6.8% year-over-year increase (or increase during the past 12-month period) in November 2021, and increasing each subsequent month, the Consumer Price Index hit 9.1% in June 2022.
- Negative real personal income growth in the first half of 2022 along with a weakening of the employment market as indicated by rising jobless claims since April 2022.

Manager’s Report to Shareholders (continued)

- In response to rising inflation, the Federal Reserve Board (the “Fed”) raised the federal funds rate by 25 basis points (“bps”), in March 2022, its first hike since cutting the rate to zero in 2020. Furthermore, it bumped rates up by 50bps in May and 75bps in June. Fears that rate hikes could eventually spark a recession have also weighed upon investor sentiment.

Interest Rates Initially Support Rotation Away from Quality

The rotation to short-duration companies was also partially supported by investors reacting to higher interest rates in a fairly typical fashion—they adjusted their cash flow modeling by increasing the rate at which they discount future cash flows back to the present, thereby lowering the value of long-duration companies. This process is similar to how long-term bonds are impacted by rising rates more than short-term bonds.

The Fed rate hikes combined with growing concerns that economic growth may be weakening eventually sparked a reversal in investors’ preference for value stocks, which started on 24 May 2022. From that date until 30 June 2022, the Russell 3000 Growth Index declined 3.44%, outperforming the 5.80% decline of the Russell 3000 Value Index. The strong relative performance of value stocks earlier in the year, however, resulted in the Russell 3000 Value Index’ -13.1% return substantially outperforming the -28.2% return of the Russell 3000 Growth Index.

Not Just Growth, But High-Quality Small Cap Growth, Underperforms

Many small cap growth companies may exhibit little or no current earnings, while maintaining strong potential for significant sales and earnings growth. Within the Russell 2000 Growth Index, for example, we believe many Health Care companies are high-quality businesses even though they may not be currently generating profits due to their investments in new initiatives, among other things. However, their products or potential products can have high gross margins and potential for capturing market share. We believe, as a result of investors dismissing the appeal of potential earnings growth, the Health Care sector was one of the worst performing sectors within the small cap growth category. From a broader perspective, sectors that generally consist of companies that provide dividends and appear to be less susceptible to inflation, such as Energy and Consumer Staples, tended to outperform.

Irrational Behavior Creates Opportunity

As a result of investors’ rotation out of long duration companies, growth equities, we believe, are trading at attractive valuations. Notably, the Russell 2000 Growth Index price-to-earnings (P/E) ratio based on the consensus of 12-month earnings estimates from analysts at financial services firms and provided by FactSet declined from 31x to approximately 21x during the six-month fiscal reporting period while the Russell 1000 Growth Index declined from 44x to 23x.

Manager's Report to Shareholders (continued)

Navigating Fed Rate Hikes

Investors who are concerned about monetary policy may want to consider that, historically, the later phases of monetary tightening periods have been accompanied by growth equities outperforming value equities. The six-month period starting approximately three months after the beginning of Fed tightening cycles initiated in 1994, 1999, 2004 and 2015 illustrate this point. Based on the returns of the Russell 3000 Growth and Russell 3000 Value indices, the median outperformance of growth companies during those periods was 400bps. During later phases of rate hikes, economic growth slows, so investors may be more willing to pay a premium for companies that can increase their earnings.

Chasing Yield

Yield hungry investors, furthermore, may want to broaden their search for income beyond dividends. For example, during the 12-month period ended 31 March 2022, the value of S&P 500 Index company share buybacks reached \$985 billion compared to only \$525 billion for dividends. Buybacks reduce the number of shares outstanding at companies, effectively increasing shareholders' ownership. Because investors can choose when to sell their shares, they have discretion over when to realize the effective return of capital as capital gains. This can make share repurchases more tax efficient than dividends. We also believe that innovative companies that are growing by capturing market share, may be candidates for share buyback programs. As they grow their sales and earnings, they may accumulate a cash "war chest" for buying back their shares.

Going Forward

We continue to believe that unprecedented levels of innovation, such as health care advancements in genetic science, and digital technologies including artificial intelligence, e-commerce, the metaverse, streaming entertainment, and cloud computing are providing opportunities for leading companies to reward investors by generating long-term earnings growth. We will continue to focus on conducting in-depth fundamental research as we seek leaders of innovation rather than take short-term bets on the fickle nature of investor sentiment. We believe doing so is the best strategy for helping our valued shareholders reach their investment goals.

Portfolio Matters

Alger SICAV - Alger American Asset Growth Fund

Class A US shares of Alger SICAV - Alger American Asset Growth Fund returned -34.48% for the fiscal six-month period ended 30 June 2022, compared to the -28.07% return of the Russell 1000 Growth Index. During the reporting period, the largest sector weightings were Information Technology and Consumer Discretionary. The largest sector overweight was Information Technology and the largest underweight was Financials.

Manager's Report to Shareholders (continued)

Contributors to Performance

The Real Estate and Financials sectors provided the largest contributions to relative performance. Regarding individual positions, AbbVie, Inc.; Alibaba Group Holding Ltd.; Vertex Pharmaceuticals, Inc.; UnitedHealth Group, Inc.; and Eli Lilly & Co. were among the top contributors to absolute performance.

AbbVie is a global biopharmaceutical company that had been shunned by many investors due to the potential for the company's Humira treatment to face increased competition in 2023. Humira is used for rheumatology, dermatology, gastroenterology and ophthalmology. We believe, however, that AbbVie has significantly diversified its revenue and that its launch of Rinvoq for psoriatic arthritis and atopic dermatitis is promising. We believe these developments contributed to the company's recent release of favorable quarterly results and investor confidence in the company, which supported the performance of AbbVie shares during the first half of the year.

Detractors from Performance

The Information Technology and Consumer Discretionary sectors were among the sectors that detracted from relative performance. Regarding individual positions, Microsoft Corp.; Amazon.com, Inc.; Apple, Inc.; Tesla, Inc.; and NVIDIA Corp. were among the top detractors from absolute performance.

Microsoft is a positive dynamic change beneficiary of corporate America's transformative digitization. Microsoft's CEO reported he expects that technology spending as a percent of GDP is likely to jump from about 5% today to 10% in a few years, and that Microsoft will continue to take market share within the technology industry. Microsoft's share price declined despite its high unit volume growth as the broad equity market was down due to higher interest rates and the Ukraine conflict. Its shares still outperformed the aggregate performance of the Russell 1000 Growth Index's Information Technology sector counterparts. We believe this was a result of investors appreciating Microsoft's strong free cash flow generation and its return of cash to shareholders in the form of dividends and share repurchases. Further, we believe the growth of Microsoft's subscription-based software offerings and cloud computing services is durable because the products enhance customers' growth initiatives and help reduce costs.

Alger SICAV – Alger Focus Equity Fund

Alger SICAV – Alger Focus Equity Fund generated a -33.60% return based on Class I-3 US shares during the fiscal six-month period ended 30 June 2022, compared to the -28.07% return of the Russell 1000 Growth Index. During the reporting period, the largest sector weightings were Consumer Discretionary and Health Care. The largest sector overweight was Industrials and the largest underweight was Communication Services.

Manager's Report to Shareholders (continued)

Contributors to Performance

The Real Estate and Consumer Staples sectors provided the greatest contributions to relative performance. Regarding individual positions, Alibaba Group Holding Ltd.; UnitedHealth Group, Inc.; McKesson Corp.; and Starbucks Corp. were among the top contributors to absolute performance.

Alibaba is a leading e-commerce and cloud computing company in China. It also serves the big data analytics, digital media and entertainment markets. Alibaba's shares have previously suffered from concerns about heightened regulatory oversight of the Chinese internet sector by the Chinese Communist Party. Additionally, many investors became concerned about the potential for U.S. exchange-listed Chinese ADRs to be delisted if they fail to meet U.S. financial reporting standards by 2024. The shares have since outperformed in response to statements by the Chinese government supporting stable markets and overseas listings. The Chinese government also stated that its intensified regulatory efforts aimed at tech companies may end soon.

Detractors from Performance

The Information Technology and Consumer Discretionary sectors were the largest detractors from relative performance. Regarding individual positions, Microsoft Corp.; Amazon.com; Advanced Micro Devices, Inc.; Apple, Inc.; and Intuit, Inc. were among the most significant detractors from absolute performance. Shares of Microsoft Corp. underperformed in response to developments identified in the Alger SICAV - Alger American Asset Growth Fund discussion above.

Alger SICAV – Alger Mid Cap Focus Fund

Alger SICAV-Alger Mid Cap Focus Fund generated a -37.33% return based on Class A US shares during the fiscal six-month period ended 30 June 2022, compared to the -31.00% return of the Russell Mid Cap Growth Index. During the reporting period, the largest sector weightings were Information Technology and Health Care. The largest sector overweight was Health Care, and the largest underweight was Financials

Contributors to Performance

The Consumer Staples and Utilities sectors provided the largest contributions to relative performance. Among individual positions, Vertex Pharmaceuticals, Inc.; Anaplan, Inc.; Vocera Communications, Inc.; Mercury Systems, Inc.; and Grocery Outlet Holding Corp. were the top contributors to absolute performance. Vertex is a biotech company that has revolutionized the treatment of cystic fibrosis ("CF"). Vertex introduced the first drugs that treat the underlying disease (vs. the symptoms) which has not only led to the company providing treatment to many CF patients, but also has created a strong foothold and potential monopoly in the space. The shares contributed to performance due to Vertex providing favorable incremental updates on its development of type 1 diabetes and genetic kidney diseases treatments.

Manager's Report to Shareholders (continued)

Detractors from Performance

The Information Technology and Industrials sectors were the largest detractors from relative performance. Among individual position, Herc Holdings, Inc.; Signature Bank; Confluent, Inc.; MGM Resorts International; and Zendesk, Inc. were the top detractors from absolute performance.

Herc is one of North America's largest equipment rental companies with products for construction, moving materials and other functions. We believe the company has strong fundamentals, but its stock underperformed because cyclical equities have gone out of favor with many investors due to the Fed increasing interest rates and investors' growing fears that a potential recession could hurt construction activity in the U.S. In addition, Herc provided mixed results for its first quarter, including profitability falling below expectations as determined by the consensus of analysts at financial services firms. Nevertheless, the company raised its guidance for the fiscal year. One of Herc's main competitors has indicated that rental demand continues to be very strong. Additionally, we believe a decade of underinvestment in capital improvements could support demand for rental equipment.

Alger SICAV – Alger Weatherbie Specialized Growth Fund

Class I-3 US shares of Alger SICAV – Alger Weatherbie Specialized Growth Fund generated a -38.40% return during the fiscal six-month period ended 30 June 2022, compared to the -29.45% return of the Russell 2500 Growth Index. During the reporting period, the largest sector weightings were Industrials and Information Technology. The largest sector overweight was Financials and the largest sector underweight was Information Technology.

Contributors to Performance

The Information Technology and Health Care sectors provided the largest contributions to relative performance. Regarding individual positions, Ollie's Bargain Outlet Holdings, Inc.; Definitive Healthcare Corp., Cl. A; US Physical Therapy, Inc.; SEMrush Holdings, Inc. Cl. A; and Impinj, Inc. were among the top contributors to absolute performance. Ollie's Bargain Outlet Holdings is a retailer of brand name merchandise such as food, housewares, books and stationery, bed and bath products, floor coverings, electronics and toys. Other products include hardware, personal health care, candy, clothing, sporting equipment, pet, lawn and garden items. In its first quarter earnings commentary, Ollie's said they see outsized deal flow with a surplus of retail product creating great closeout opportunities in the coming quarters. We believe closeouts should be approximately 70% of revenue this year, which would be a historically consistent mix for the company. While in the near-term Ollie's may face pressure as other retailers discount their own excess inventories, in the long-term Ollie's remains well positioned to be the leader in closeout retail, open more locations, and benefit as more consumers shop for steep discounts on name brand goods at Ollie's.

Manager's Report to Shareholders (continued)

Detractors from Performance

The Industrials and Financials sectors were the most significant detractors from relative performance. Regarding individual positions, Chegg, Inc., Montrose Environmental Group, Inc.; SiteOne Landscape Supply, Inc.; Latham Group, Inc.; and FirstService Corp. were among the top detractors from absolute performance.

Chegg, Inc. provides online textbook rentals and other internet-delivered services, such as homework help, tutoring and assistance with obtaining scholarships and finding internships. The company has been acquiring customers at low cost, in part because it is a leader in providing supplemental educational services to college students. Its Chegg Study offering aims to help students master subjects, get better grades, graduate, and pursue careers. Chegg's shares underperformed after the company provided weaker-than expected quarterly and full-year guidance, caused by the higher education industry experiencing weakening student enrollment, rising inflation and other headwinds. Chegg's first quarter 2022 revenue of \$202.2 million was in the middle of the company's guidance range and \$1 million below an estimate from a consensus of analysts at financial services firms, according to FactSet. Chegg management noted that the ability to be precise with forecasts is not really possible in the current environment because there are currently too many macro variables in play that are having a major impact on the higher education industry.

Alger SICAV – Alger Small Cap Focus Fund

Class A US shares of Alger SICAV – Alger Small Cap Focus Fund returned -39.71% during the fiscal six-month period ended 30 June 2022, compared to the -29.45% return of its benchmark, the Russell 2000 Growth Index. During the reporting period, the largest sector weightings were Health Care and Information Technology. The largest sector overweight was Health Care and the largest sector underweight was Consumer Discretionary.

Contributors to Performance

The Consumer Discretionary and Financials sectors provided the greatest contributions to relative performance. Regarding individual positions, Evolent Health Inc.; HealthEquity, Inc.; Shockwave Medical, Inc.; Grocery Outlet Holding Corp.; and Mercury Systems, Inc. were among the top contributors to absolute performance.

Evolent Health is a health care delivery and payment services company that supports health systems and physician organizations (providers) and health plans (payers) as these clients move their business models from traditional fee-for-service (FFS) to value-based care. The company's clinical and administrative solutions seek to help customers manage and administer patient care in a more cost-effective manner. We believe Evolent's strong second quarter stock performance is attributable to its positive first quarter 2022 earnings report, where Evolent beat analysts' expectation and raised its fiscal year 2022 outlook. Total lives, or individuals, enrolled across all the platforms that Evolent offers grew 74% year over year, driven by both the addition of new

Manager's Report to Shareholders (continued)

lives to the company's platform and upselling to higher-priced offerings. Evolent also announced two new health plan or provider partnerships in the first quarter, bringing its year-to-date new partnerships to six. Evolent has historically targeted four to six new partnerships per year, so the company has already hit the low end of its full-year range. We also believe Evolent shares outperformed relative to health care services peers in the current market environment because, unlike many names in its peer set, it is already profitable and generates positive free cash flow.

Detractors from Performance

The Information Technology and Health Care sectors were the largest detractors from relative performance. Regarding individual positions, Herc Holdings, Inc.; Natera, Inc.; Smartsheet, Inc., Cl. A; Heska Corporation; and NanoString Technologies, Inc. were among the top detractors from absolute performance. Shares of Herc Holdings, Inc. underperformed in response to developments identified in the Alger SICAV – Mid Cap Focus Fund discussion above.

Alger SICAV – Alger Dynamic Opportunities Fund

Class A US shares of Alger SICAV – Alger Dynamic Opportunities Fund returned -18.18% during the fiscal six-month period ended 30 June 2022, compared to the -19.96% return of the S&P 500 Index. During the reporting period, the average long exposure was 80.53%. The negative returns of the long positions underperformed the benchmark and provided a negative absolute underperformance and detracted from the results.

The average short exposure for the six-month period was -40.42%. Short exposure, in aggregate, underperformed the benchmark but contributed to both absolute and relative performance. Net exposure, which is the difference between long and short exposure, was 40.11%. Based on net exposure, the Information Technology and Health Care sectors were the largest sector weightings during the reporting period. The Energy and Industrials sectors were the only sectors overweighting.

Contributors to Performance

During the reporting period, long positions, in aggregate, detracted from both absolute and relative performance. Short positions, in aggregate, contributed to both relative and absolute performance. Among long positions, the Information Technology and Health Care sectors provided the greatest contributions to relative performance. Regarding individual long positions, Seagen, Inc., Costco Wholesale Corp. and Catalent, Inc. were among the top contributors to absolute performance.

Seagen, Inc. is an emerging multi-product, global biotechnology company that develops and commercializes transformative cancer-targeting therapies. It has pioneered a new modality called antibody drug conjugates (ADCs), which has been recognized as a major advance in cancer treatment. Recently, the company's CEO and founder retired, which led to speculation that the company may be an acquisition target by a large biopharmaceutical company, which supported the performance of Seagen shares.

Manager's Report to Shareholders (continued)

Regarding individual short positions, short exposure to Carvana Co., a holding company that provides an eCommerce platform for the buying and selling of used cars contributed to performance. After benefitting from a strong market for used car sales last year, fast rising interest rates and shifting consumer sentiment led to affordability issues among potential car buyers that became pronounced headwinds to demand beginning in the first quarter. The company has also experienced execution issues around infrastructure scaling that are adding significant costs to a business that, in our view, hasn't proven its ability to generate free cash flow. Beyond the core business weakening, the company's balance sheet has become a growing concern in a tighter liquidity environment with the company having recently issued approximately \$3 billion of incremental high-cost debt. The factors resulted in the share price declining and the short exposure contributing to performance.

Detractors from Performance

The Consumer Discretionary sector was the largest detractor from relative performance. Regarding individual long positions, Chegg, Inc., Progyny, Inc. and Montrose Environmental Group were among the top detractors from absolute performance. Shares of Chegg underperformed in response to developments identified in the Alger SICAV – Alger Weatherbie Specialized Growth Fund discussion.

Regarding individual short positions, short exposure to Twist Bioscience Corp., a company that manufactures synthetic DNA for research labs using a proprietary semiconductor-based synthetic DNA manufacturing process detracted from performance. Examples of synthetic DNA use cases include novel early-stage drug discovery, improving genomics workflows, and developing more sustainable chemicals for things like cosmetic products. The company posted a more modest beat relative to historical standards in their second quarter earnings report with revenues exceeding estimates as determined by a consensus of analysts at financial services firms and provided by FactSet.

Alger SICAV – Alger Emerging Markets Fund

Class A US shares of Alger SICAV – Alger Emerging Markets Fund returned -28.29% for the fiscal six-month period ended 30 June 2022, compared to the -17.47% return of the MSCI Emerging Markets Index. During the reporting period, the largest portfolio sector weightings were Information Technology and Consumer Discretionary. The largest sector overweight was Consumer Discretionary and the largest sector underweight was Communication Services.

Contributors to Performance

The Energy and Consumer Staples sectors provided the largest contributions to relative performance. From a country perspective, Canada, South Korea, and Greece were among the top contributors to relative performance. Regarding individual positions, Budweiser Brewing Co. APAC Ltd.; JD.com, Inc.; BYD Co. Ltd. Cl. H; LONGi Green Energy Technology Co Ltd Cl. A; and JS Global Lifestyle Co. Ltd. were among the top contributors to absolute performance.

Manager's Report to Shareholders (continued)

Budweiser Brewing APAC is the largest brewer in the Asia Pacific region with a focus on key markets including China, India, South Korea, and Vietnam. The company has an extensive brand portfolio across all price segments but is the clear leader in the fastest growing premium and super premium segments of the beer market. Key brands include Budweiser, Becks, Corona, Harbin, Cass, Hoegaarden, OB and Stella Artois. During the second quarter, the company released strong earnings that exceeded expectations and highlighted its ability to offset the challenging headwinds it faced in China due to COVID-19 lockdowns by generating strong results in South Korea and India. This, coupled with the Chinese government's loosening of COVID-19 restrictions in June, drove share price performance.

Detractors from Performance

The Consumer Discretionary and Informational Technology sectors were among the sectors that detracted from relative performance. From a country perspective, Brazil, Argentina, and Taiwan were among the top detractors from relative performance. Regarding individual positions, Chunbo Co., Ltd.; Taiwan Semiconductor Manufacturing Co., Ltd.; Globant SA; Realtek Semiconductor Corp.; and LEENO Industrial, Inc. were among the top detractors from absolute performance. Chunbo is a leading provider of chemicals and materials. Its shares underperformance was due to concerns that its second quarter 2022 results may fall short of expectations due to volatility in input costs and product price. Additionally, shipment volumes to end customers may be lower than previously expected. However, Chunbo has carved out a unique position in the battery materials category, developing unique additives to improve battery cycle performance, increase conductivity, shortening recharging times and improve safety (heat dissipation) at industry leading cost/price points.

As always, we strive to deliver consistently superior investment results to you, our shareholders, and we thank you for your business and your continued confidence in Alger.

Respectfully submitted,

Daniel C. Chung, CFA

The calculation of the Fund's performance complies with the "Guidelines on the calculation and publication of performance data of collective investment schemes", which were published by the Swiss Funds & Asset Management Association ("SFAMA") as updated on 1 July 2013.

The performance figures given are a measure of the change in Net Asset Value per Share (NAV) of each Sub-Fund and do not take into account taxes, commissions and cost incurred on the issue and redemption of shares. These performance figures are, therefore, not a measure of return to investors. Performance figures assume reinvestment of distributions paid during the period, if any. All fees and expenses related to the operations of each portfolio have been deducted. Past performance is not an indication of current or future performance.

All recurring expenses will be charged first against income, then against capital gains, if any, and then against assets. These expenses will include the remuneration of the Portfolio Manager and the Management Company, the remuneration and the reimbursement of the expenses of the Administrative Agent, Registrar and Transfer Agent, the Depositary and any other paying agents, expenses for legal, auditing and other professional services, the costs of printing proxies, shareholder reports and prospectuses and other reasonable promotional and marketing expenses, expenses incurred in processing issuances and redemptions of Shares and payments of dividends, if any, taxes, registration fees and other expenses due or incurred in connection with the authorization by and reporting to supervisory authorities in various jurisdictions, the cost of translating the

Investment Risks (Unaudited)

The Alger American Asset Growth Fund, the Alger Emerging Markets Fund, the Alger Small Cap Focus Fund, the Alger Weatherbie Specialized Growth Fund, the Alger Focus Equity Fund and the Alger Mid Cap Focus Fund determine global exposure, calculated pursuant to CSSF Circular 11/512, using the commitment approach. At 30 June 2022, Alger Dynamic Opportunities Fund holds contracts for difference. Contracts for difference are a type of financial derivative instruments that the Fund uses to gain short or long exposure to individual securities or indexes. The Alger Dynamic Opportunities Fund determines global exposure using the absolute Value-at-Risk (“VaR”) approach. The VaR is determined using the historical simulation model and is calculated each day at a 99% confidence interval and holding period. For the period ended 30 June 2022, the VaR ranged from a high of -18.67%, a low of -10.51% and an average of -13.77%. The Alger Dynamic Opportunities Fund calculates bi-monthly the derivative exposure of the financial instruments in its portfolio (the “Leverage Ratio”) by applying the sum of notional approach. For the period ended 30 June 2022, the Leverage Ratio averaged 46.97%, and did not exceed 61.24%.

Sustainable Finance Disclosure Regulation (Unaudited)

The Board approved the determination that the Fund falls under article 6 (1) of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector, as amended (“SFDR”). The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

* Contracts for difference are not subject to settlement and clearing standards (e.g., tri-party, Central Counterparty, bilateral).

* Maturity tenor cannot be broken down in respect to contracts for difference.

- **Collateral on contracts for difference**

As at 30 June 2022, the nominal value of the collateral received / (pledged) on contracts for difference is as follows:

Sub-Funds	Quality of the collateral	Counterparty	Currency	Total collateral received / (pledged)
Alger SICAV - Alger Dynamic Opportunities Fund	Cash	BNP Paribas SA	USD	90,000
Alger SICAV - Alger Dynamic Opportunities Fund	Cash	Goldman Sachs	USD	7,535,204

* Cash collaterals on contracts for difference have open maturity by nature; they cannot be reused or returned to the collective investment scheme.

* Break down between the collective investment undertaking, the manager of the collective investment undertaking and third parties (e.g. agent lender) are not applicable to contracts for difference.

* As at 30 June 2022, \$7,625,204 were held in pooled accounts.

* As at 30 June 2022, BNP Paribas SA and Goldman Sachs were the custodians for the contracts for difference.

ALGER SICAV

Notes to the Financial Statements (Unaudited)**Note 1: General**

Alger SICAV (the "Fund") was incorporated for an unlimited duration in the Grand Duchy of Luxembourg on 26 July 1996 (under the name "The Alger American Asset Growth Fund") as an investment company with variable capital (*Société d'Investissement à Capital Variable* – commonly known as a "SICAV") in the corporate form of a public limited liability company (*société anonyme*). The Fund qualifies as an "Undertaking for Collective Investment in Transferable Securities" (UCITS) under Part I of the Luxembourg Law of 17 December 2010, relating to undertakings for collective investment in transferable securities, as amended (Law of 2010).

The Fund is registered with the Luxembourg trade and companies register ("Registre de Commerce et des Sociétés") under number B 55679. The Fund's articles of incorporation are available for inspection at its registered office at 49, Avenue J.F. Kennedy, L-1855 Luxembourg, Grand-Duchy of Luxembourg. The Fund's articles of incorporation were amended on 11 August 2000, 1 October 2003, 30 December 2005, and 15 June 2012, and these amendments were published in the *Mémorial C, Recueil des Sociétés et Associations* on 22 September 2000, 3 November 2003, 31 January 2006, and 29 June 2012 respectively.

The Fund is designed to provide an opportunity for investors primarily in Europe and the United Kingdom to take advantage of the professional investment expertise of the Portfolio Manager, Sub-Portfolio Managers and its affiliates.

The Fund is an open-ended investment vehicle, which redeems its shares at the request of its shareholders on a daily basis at a price based upon the value of the Fund's net assets.

The share classes currently offered in the Sub-Funds of the Fund are listed below:

Note 2: Significant Accounting Policiesa) Presentation of accounts

The Fund maintains the books and records of each Sub-Fund and prepares combined financial statements in U.S. Dollars (“USD”). Combined financial statements are obtained by the sum of the financial statements of each individual Sub-Fund on a line by line basis.

The financial statements are prepared in accordance with the Luxembourg legal and regulatory requirements and the generally accepted accounting principles in Luxembourg relating to UCITS.

b) Net Asset Value and valuation of assets

The Net Asset Value per Share of each Class for each Sub-Fund shall be expressed in the currency of the relevant Class up to two decimal places and is determined by the Administrative Agent on each Business Day on the basis of the securities prices prevailing at the close of business of the relevant securities markets on which the investments of the Fund corresponding to each Class of each Sub-Fund are traded, quoted or dealt in on the last trading day immediately preceding the relevant Valuation Date by dividing:

- (i) The Net Asset Value per Class, meaning the value of all the securities and other assets of a Class, less all debts, obligations and liabilities (including accrued expenses) of the Class concerned, by
- (ii) the total number of shares of the relevant Class then outstanding.
- (iii) If the determination of the Net Asset Value in the relevant currency of expression is either not reasonably practical or prejudicial to the shareholders of the Fund, the Net Asset Value per Class on the subscription price, redemption price and exchange price may temporarily be determined in such other currency as the Board of Directors of the Fund may determine.

Each such calculation of the Net Asset Value per Share of each Class shall be conclusive absent manifest error.

The Net Asset Value per Share of each Class may be obtained at the registered office of the Fund, and the Fund will arrange for regular publication of the Net Asset Value per Share via any media as the Board of Directors of the Fund may from time to time determine.

The value of the Fund’s assets shall be determined as follows:

- (1) the value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Board of Directors of the Fund may consider appropriate in such case to reflect the true value thereof;
- (2) the value of all securities and/or Financial Derivative Instruments (“FDIs”) which are listed on an official stock exchange or traded on any other regulated market which operates regularly and is recognized and open to the public, are determined on the basis of the last reported sales price on the exchange or market on which such securities and/or FDIs are traded on the last trading day immediately preceding the Valuation Date, or, if no sales are reported, on the basis of market quotations, in each such case, as furnished by a pricing service approved by the Board of Directors of the Fund;
- (3) in the event that any of the securities and/or FDIs held in the Fund’s portfolio on the relevant day are not listed on any stock exchange or traded on any regulated market which operates regularly and is recognised and open to the public, or if, with respect to securities and/or FDIs listed on any stock exchange or traded on any other regulated market which operates regularly and is recognised and open to the public, the price as determined pursuant to sub-paragraph (2) is not representative of the fair market value of the relevant securities and/or FDIs or, if no prices are available, the value of such securities and/or FDIs is based on the reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the Fund;

ALGER SICAV

Notes to the Financial Statements (Unaudited) (continued)**Note 2: Significant Accounting Policies (continued)**

- (4) shares or units in underlying open-ended investment funds shall be valued at their last available net asset value.
- (5) liquid assets and money market instruments may be valued at nominal value plus any accrued interest or on an amortised cost basis. All other assets, where practice allows, may be valued in the same manner; short-term investments that have a remaining maturity of one year or less may be valued (i) at market value, or (ii) where market value is not available or not representative, at amortised cost;
- (6) securities and/or FDIs which are not so listed are valued on the basis of their last available closing price. Should the last available closing price for a given security and/or FDI not truly reflect its fair market value, then that security and/or FDI is valued by the Board of Directors of the Fund on the basis of the probable sales price which the Board of Directors of the Fund deems is prudent to assume. The table below presents securities which were fair valued by the Board of Directors of the Fund at 30 June 2022:

Fund name	Security name	% of the TNA
Alger SICAV - Alger American Asset Growth Fund	Prosetta Biosciences, Inc. Class D	0.00%
Alger SICAV - Alger Dynamic Opportunities Fund	Impulse Dynamics N.V.	0.68%
Alger SICAV - Alger Dynamic Opportunities Fund	Crosslink Ventures C, LLC Class A	0.13%
Alger SICAV - Alger Dynamic Opportunities Fund	Crosslink Ventures C, LLC Class B	0.05%
Alger SICAV - Alger Dynamic Opportunities Fund	Tolero Pharmaceutical, Inc. CDR	0.02%
Alger SICAV - Alger Dynamic Opportunities Fund	Prosetta Biosciences, Inc. Class D	0.00%
Alger SICAV - Alger Weatherbie Specialized Growth Fund	Impulse Dynamics N.V.	0.47%

- (7) if any of the aforesaid valuation principles do not reflect the valuation method commonly used in specific markets or if any such valuation principles do not seem accurate for the purpose of determining the value of the Fund's assets, the Board of Directors of the Fund may fix different valuation principles in good faith and in accordance with generally accepted valuation principles and procedures;
- (8) any assets or liabilities in currencies other than the base currency of the classes of shares are converted using the relevant spot rate quoted by a bank or other responsible financial institution;
- (9) in circumstances where the interests of the Fund or its shareholders so justify (avoidance of market timing practices, for example), the Board of Directors may take any appropriate measures, such as applying a fair value pricing methodology to adjust the value of the Fund's assets, as further described below.

If such prices are not representative of their fair value, such securities are valued on the reasonably foreseeable sales prices determined prudently and in good faith by or under the direction of the Board of Directors of the Fund. Any assets or liabilities expressed in terms of currencies other than U.S. Dollars are translated into the relevant currency after taking into consideration the market rate or rates of exchange in force at the date and time for determination of the Net Asset Value.

Fair value adjustments may be implemented to protect the interests of the Fund's Shareholders against market timing practices. Accordingly if a Sub-Fund invests in markets that are closed for business at the time the Sub-Fund is valued, the Board of Directors of the Fund may, by derogation from the provisions above under security valuation, allow for the securities included in a particular portfolio to be adjusted to reflect more accurately the fair value of the Sub-Fund's investments at the point of valuation. As of 30 June 2022, no Sub-Funds were materially impacted by this fair value adjustment policy.

- (10) Forward foreign exchange contracts are valued at forward market rates for the remaining period from valuation date to the maturity of the contract. Unrealized appreciation / (depreciation) on forward foreign exchange contracts is recorded in the Statements of Net Assets. Net realized gain / (loss) and net change in unrealized appreciation / (depreciation) on forward foreign exchange contracts are recorded in the Statement of Operations and summarized in the Statement of Changes in Net Assets.
- (11) Option contracts quoted on an official stock exchange or on another regulated market are valued according to the last known market price or, if there are several markets, according to the last known price of the principal market. Option contracts are recorded at market value in the Statement of Net Assets. Net realized gain / (loss) and net change in unrealized appreciation / (depreciation) on option contracts are recorded in the Statement of Operations and summarized in the Statement of Changes in Net Assets.
- (12) The market value of the contracts for difference is determined by the traded price on the exchange on which the underlying securities or assets are traded or admitted for trading less the financing costs attributable to the relevant contract. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used.

Unrealized appreciation / (depreciation) on contracts for difference are recorded in the Statement of Net Assets. Net realized gain / (loss) and net change in unrealized appreciation / (depreciation) on contracts for difference are recorded in the Statement of Operations and summarized in the Statement of Changes in Net Assets.

The accounting method used for the transaction of contracts for difference is the first in, first out method.

Notes to the Financial Statements (Unaudited) (continued)**Note 2: Significant Accounting Policies (continued)**c) Estimates

The financial statements are presented in accordance with Luxembourg legal and regulatory requirements relating to the preparation of financial statements for UCITS, which may require using estimates and assumptions that affect the reported amounts therein. Actual results may differ from those estimates.

d) Sales of Investments and Investment Income

Security transactions are recorded on a trade date + 1 basis. Net realized gains and losses on sales of investments are recorded on the average cost basis. Dividend income is recognized on the ex-dividend date, less any applicable withholding taxes. Interest income is recognized on an accrual basis, less any applicable withholding taxes.

e) Share Classes

Shares of the Fund are offered in one or more classes. The proceeds of each Class are invested in one common underlying portfolio of investments but the net asset value of each class will differ as a result of different expense and currency hedging structures.

Note 3: Exchange Rates

Purchases and sales of investment securities and income and expense items occurring during the period are translated using the exchange rates prevailing on the transaction date. Cash balances and other assets or liabilities of the Fund expressed in currencies other than USD have been valued after taking into account the market rates of exchange in force at the time for determination of the Net Asset Value per share. Any assets or liabilities expressed in terms of currencies other than USD were translated from 1 January 2022 to 30 June 2022 into the relevant currency after taking into consideration the market rate or rates of exchange in force at the date and time for determination of the Net Asset Value.

The exchange rates at 30 June 2022 are the following:

Currency	Exchange Rate
USD/BRL	5.233
USD/CAD	1.287
USD/CNY	6.694
USD/EUR	0.954
USD/GBP	0.823

USD/IDR	14,897.500
USD/INR	78.973
USD/KRW	1,298.400
USD/TWD	29.734

Note 4: Management Company and Portfolio Manager fees

The Fund paid the Management Company a tiered fee payable quarterly at an annual rate of up to 0.04% of the relevant Sub-Fund's average daily Net Asset Value.

The Fund pays the Portfolio Manager a fee payable monthly in arrears at an annual rate of the value of each Sub-Fund's average daily net assets during the relevant calendar month. The below table presents the annual rates:

Note 8: Depository, Administrative, Registrar and Transfer Agent and Director's Fees

The duties of depository, central administrator, principal paying agent, listing agent, registrar and transfer agent are delegated to State Street. State Street is entitled to receive fees out of the net assets of the Sub-Fund, pursuant to the relevant agreement between State Street and the Company and in accordance with usual market practice in Luxembourg. The maximum fee payable to the Depository is 0.55% per annum and to the administrative agent the maximum fixed fee is 0.045% per annum (exclusive specific fees payable for the processing of multiple Classes), in each case based on the Net Asset Value of the relevant Sub-Fund. There is a minimum fixed fee payable to the administrative agent of \$6,000 per month, per Sub-Fund.

The Independent Director received a fixed fee of \$20,000 which does not include any variable remuneration dependent upon the performance of the Fund.

Note 9: Investment in Derivative Transactions

Each Sub-Fund may, for the purpose of efficient portfolio management of its assets or for providing protection against exchange rate risks, employ techniques and instruments relating to transferable securities. The Sub-Funds may invest, as a part of their investment policy and within certain limits, in FDIs provided that the exposure to the underlying assets does not exceed in aggregate certain investment limits. The types of derivative transactions each of the Sub-Funds may invest in are outlined in the Fund's Prospectus.

An Eligible Counterparty is a counterparty which is a first class financial institution having its registered office in an EU Member State, in the United States or in a country where it is subject to prudential supervision rules considered by the CSSF equivalent to those prescribed by Community law.

Note 10: Transaction Costs

For the period ended 30 June 2022, the Fund incurred transaction costs (composed of broker fees and stamp duties) relating to the purchase or sale of investment securities. The brokerage charges are part of the acquisition cost / sale price of the related assets and, for the period from 1 January 2022 to 30 June 2022, amounts are as follows (in USD):

Notes to the Financial Statements (Unaudited) (continued)

Note 11: General risks

Investing in the stock market involves risks, including the potential loss of principal. Growth stocks may be more volatile than other stocks as their prices tend to be higher in relation to their companies' earnings and may be more sensitive to market, political, and economic developments. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness such as COVID-19 or other public health issues, recessions, or other events could have a significant impact on investments. A significant portion of assets may be invested in securities of companies in related sectors, and may be similarly affected by economic, political, or market events and conditions and may be more vulnerable to unfavorable sector developments. Foreign securities involve special risks including currency fluctuations, inefficient trading, political and economic instability, and increased volatility.
