Who We Are

Fred Alger Management, LLC is widely recognized as a pioneer of growth-style investment management. We have been an independent, privately owned firm since our founding in 1964. For more than 50 years, we have had **three leaders with one vision**: Maintaining the legacy and continuity of the Alger Investment Philosophy.

Philosophy

Alger has been committed to a growth style of investing since the firm was founded in 1964. We believe that the best way to uncover and evaluate such companies is through intensive, fundamental, proprietary investment research. At Alger, we believe companies undergoing **Positive Dynamic Change** offer the best investment opportunities. By Positive Dynamic Change, we mean those companies experiencing High Unit Volume Growth and Positive Life Cycle Change.

NEW IDEAS Identify exceptional small companies early in their corporate life cycle undergoing Positive Dynamic Change.

ANALYSIS Fundamental, bottom-up research incorporating quantitative and qualitative assessments to develop a differentiated view.

DIALOGUE Daily dialogue and weekly formal meetings to review portfolio, discuss in-progress research, and set future research priorities.

CONSTRUCTION Benchmark-agnostic, bottom-up stock selection of approximately 50 names.

MONITORING Portfolio risk is mitigated by depth of research and the resulting knowledge and understanding of company-specific business risks.

Average Annual Total Returns (%) (as of 30 November 2023)

Performance shown is net of fees and expenses.

The performance data quoted represents past performance, which is not an indication or a guarantee of future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Fund returns include change in share price and reinvested distributions, as applicable, and do not reflect the deduction of any applicable taxes. Returns are calculated in U.S. dollars.

Only periods greater than 12 months are annualized.

Risk Disclosures - Investing in the stock market involves risks, including the potential loss of principal. Growth stocks may be more volatile than other stocks as their prices tend to be higher in relation to their companies' earnings and may be more sensitive to market, political, and economic developments. Local, regional or global events such as environmental or natural disasters, war, terrorism, pandemics, outbreaks of infectious diseases and similar public health threats, recessions, or other events could have a significant impact on investments. A significant portion of assets may be invested in securities of companies in related sectors of industries, and may be similarly affected by economic, political, or market events and conditions and may be more vulnerable to unfavorable sector or industry developments. Investing in companies of small capitalizations involves the risk that such issuers may have limited product lines or financial resources, lack management depth, or have limited liquidity. Assets may be focused in a small number of holdings, making them susceptible to risks associated with a single economic, political or regulatory event than a more diversified portfolio. At times, cash may be a larger position in the portfolio and may underperform relative to equity securities. Class G Shares are offered only to investors in the U.K. and are not subject to sales charges. Class G Shares are not subject to distribution or service fees. Class I-US Shares are available to purchase with a \$10 million investment minimum. This material is not meant to provide investment advice and should not be considered a recommendation to purchase or sell securities.

Alger pays compensation to third party marketers to sell various strategies to prospective investors. Market capitalization and sector allocation are inclusive of cash but cash is not displayed in the chart. Top holdings are inclusive of cash but cash is not displayed as a top holding. Risk metrics are statistical measures designed to show the expected risk for a portfolio and are not a measure of performance. Risk Metrics are sourced from Morningstar, an independent source, and include the impact of cash. Fred Alger Management, LLC, makes no representation that Morningstar is complete, reliable, or accurate.

Active Share is a measure of the percentage of stock holdings in a portfolio that differs from the benchmark index. The calculation is inclusive of cash. **Alpha** measures the difference between a portfolio's actual returns and its expected performance, given its level of risk (as measured by beta). **Attribution analysis** is based on gross of fees performance and is generated utilizing Factset, which analyzes the absolute return (often called contribution) and the excess return (often called relative return) between a portfolio and its benchmark. **The Total Effect** measures both allocation effect to a sector and stock selection within a sector.

Contribution to Return (CR) approximates the contribution by an individual position to the overall portfolio return of the stated period. **Past performance does not guarantee future results.** **Beta** measures a portfolio's sensitivity to market movements relative to a particular index; a portfolio with a beta of 1.00 would be expected to have returns equal to such index. **Downside Capture Ratio** measures a portfolio's performance in down markets relative to the benchmark. It is calculated by taking the portfolio's downside return and dividing it by the benchmark's downside return. A down-market is defined as those time periods in which market return is less than 0. **Information Ratio** was calculated as the portfolio's rate of return less the index's rate of return relative to the portfolio's standard deviation less the index's standard deviation for the period shown. **Sharpe Ratio** was calculated as the portfolio's rate of return less the 3 month T-Bill's rate of return relative to the portfolio's standard deviation less the 3 month T-Bill's standard deviation for the period. **Standard Deviation** measures how much the portfolio's return has deviated from its average historical return. **Upside Capture Ratio** measures a portfolio's performance in up markets relative to the benchmark. It is calculated by taking the portfolio's upside return and dividing it by the benchmark's upside return. Certain products may be subject to restrictions with regard to certain persons or in certain countries under national regulations applicable to such persons or countries. **NOTABLY, THIS INFORMATION IS EXCLUSIVELY INTENDED FOR PERSONS WHO ARE NOT U.S. PERSONS, AS SUCH TERM IS DEFINED IN REGULATIONS OF THE U.S. SECURITIES ACT OF 1933, AS AMENDED AND WHO ARE NOT PHYSICALLY PRESENT IN THE UNITED STATES.** See the country specific disclosures for information regarding the Funds registration and the availability of the prospectus containing all necessary information about the product, the costs, and the risks which may occur. Characteristics are sourced from FactSet, an independent source, using all available data. Fred Alger Management, LLC, makes no representation that FactSet is complete, reliable, or accurate. With the exception of active share, the calculation excludes cash. Equity Holdings for the referenced product represents individual securities held, excluding private placements, private equity, rights, warrants, options, other derivatives, cash or cash equivalents and securities where the total market value in the portfolio is less than one dollar. A list of all holdings can be found at www.alger.com for the applicable fund or composite. P/E Ratios were calculated using a weighted harmonic average. Sales Growth and EPS Growth rates were calculated using a weighted median. **Earnings per share (EPS)** is the portion of a company's earnings or profit allocated to each share of common stock. **Sales Growth** is a measure of the estimated sales growth rate of a company over the next 12 months.

Box, CH-8024 Zurich. The prospectus, the key information documents or the key investor information documents, the fund regulation or the articles of association as well as the annual and semi-annual reports may be obtained free of charge from the representative. Past performance is no indication of current or future performance. The performance data do not take account of the commissions and costs incurred on the issue and redemption of units. Class A US shares are subject to a maximum front-end sales charge of up to 6.00%. No shares in the Alger SICAV or its sub-funds may be offered or sold to U.S. persons or in jurisdictions where such offering or sale is prohibited. The Alger SICAV is authorized by the Luxembourg Supervisory Authority as a UCITS and has only been authorized for public distribution in certain jurisdictions. This material does not form part of the prospectus of the Alger SICAV and is not, and should not be construed as, an offer, invitation or solicitation to subscribe for the shares in the Fund or other sub-funds of the Alger SICAV. The Alger SICAV is authorized by the Luxembourg Supervisory Authority as a UCITS and has only been authorized for public distribution in certain jurisdictions. It is the responsibility of any person in possession of this presentation to observe all applicable laws and regulations of any relevant jurisdiction with regard to sales and investment in the Fund or other sub-funds of the Alger SICAV. This material is authorized for distribution only when accompanied or preceded by a current prospectus of the Alger SICAV, which contains more information about investment objective, risks, charges, and expenses. Please read the prospectus carefully before investing. Sales of shares in the Alger SICAV, the subject of this fact sheet, are made on the basis of the prospectus only and this fact sheet does not constitute an offer of shares in the Fund or other sub-funds of the Alger SICAV. An investment in the Alger SICAV entails risks, which are described in the prospectus. Investors may not get back the full amount invested and the net asset value of the Alger SICAV will fluctuate with market conditions. Exchange rate fluctuations and Fund charges also affect the return to the investor. The holdings are subject to change. There is no assurance that the Alger SICAV objectives will be achieved. Fred Alger Management, LLC uses the Global Industry Classification Standard (GICS®) for categorizing companies into sectors and industries. GICS® is used for all portfolio characteristics involving sector and industry data such as benchmark, active and relative weights and attribution. The Global Industry Classification Standard (GICS®) is the exclusive intellectual property of MSCI Inc. (MSCI) and Standard & Poor's Financial Services, LLC (S&P). Neither MSCI, S&P, their affiliates, nor any of their third party providers ("GICS Parties") makes any representations or warranties, express or implied, with respect to GICS or the results to be obtained by the use thereof, and expressly disclaim all warranties, including warranties of accuracy, completeness, merchantability and fitness for a particular purpose. The GICS Parties shall not have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of such damages. Sector and industry classifications are sourced from GICS. Historical classifications use GICS categories available as of the date of this presentation. Portfolio holdings may change and stocks of companies noted may or may not be held by one or more Alger portfolios from time to time. Investors should not consider references to individual securities as an endorsement or recommendation to purchase or sell such securities. Transactions in such securities may be made which seemingly contradict the references to them for a variety of reasons, including but not limited to, liquidity to meet redemptions or overall portfolio rebalancing.

The Russell 2000® Growth Index GBP measures the performance of the small-cap growth segment of the U.S. equity universe, with performance reported in GBP.
