Registered in: LU BE ES DE CH FR

## KEY FIGURES

NAV: 180.49€

Fund size: €96.78M

## SYNTHETIC RISK INDICATOR

## INVESTMENT HORIZON

## CHARACTERISTICS

**Legal form:** Sub-fund of the Luxembourg SICAV  
LA FRANCAISE LUX

**Inception date:** 25/01/2018

**Benchmark:** MSCI AC World (€) TR

**Benchmark change:** Until 19th July 2022 : Index for comparison MSCI AC World Daily Net Total Return

**Allocation of distributable amounts:**  
Capitalization

**Currency:** EUR

**Valuation frequency:** Daily

**Clients:** All subscribers

**Major risks not taken into account by the indicator:** Impact of techniques such as derivative investments, Exchange rate risk, Small Cap risk, Model risk

## COMMERCIAL INFORMATION

**ISIN code:** LUI744646933

**Bloomberg Ticker:** LFIPRCE LX Equity

**Cut-off time:** D before 11:00 am CET

**Settlement:** D+2 business days

**Eligibility for PEA:** No

**Max. subscription fees:** 3%

**Max. redemption fees:** 0%

**Management fees and other administrative and operating expenses:** 2.03%

**Custodian:** BNP Paribas SA, Luxembourg Branch

**Administrator:** BNP Paribas SA, Luxembourg Branch

**Management company:** Crédit Mutuel Asset Management

**Portfolio Manager(s):** Gaspard BRAMAT, Hajar YOUSFI

## INVESTMENT STRATEGY

The objective (until 19 July 2022) is to contribute to the transition to a low carbon economy while achieving long-term capital growth. The Objective (as from 20 July 2022) is to contribute to the transition to a low carbon economy while achieving long-term capital growth. Specifically, the subfund seeks to outperform (net of fees) the reference benchmark MSCI All Country World Index ((MSCI ACWI Daily Net Total Return) over any given 5-year minimum.

## NET PERFORMANCES

The figures quoted relate to previous years. Past performance is not a reliable indication of future performance. This performance does not take into account the fees and costs for the issue and redemption of units.

## DEFINITIONS OF EXTRA-FINANCIAL TERMS

**Crédit Mutuel Asset Management's proprietary ESG analysis model** assesses the non-financial risks and opportunities of issuers in the portfolio through three main pillars of analysis: environmental, social, and governance. A rating is calculated based on these three components, which allows each issuer to be ranked in terms of ESG. The exercise of voting rights and dialogue or engagement with companies, particularly in the event of controversy, complete our responsible investment approach.

**Environment:** this pillar assesses companies' strategies for managing and reducing the environmental impact of their activities and across their entire value chain, covering in particular the company's environmental approach, climate trajectory, biodiversity policy, water and energy consumption, and waste management.

**Social:** this pillar analyzes human capital management strategies (covering employees as well as suppliers and subcontractors) and relations with customers and civil society. It assesses respect for human rights, health and safety policy, the resources allocated to skills development, job quality, and commercial and marketing practices.

**Governance:** this pillar covers both business ethics (lobbying practices, compliance with market rules on corruption, etc.) and corporate governance practices (composition and functioning of governance bodies, executive compensation, etc.).

**Carbon Impact Score:** The Carbon Impact score is calculated as a simple average of indicators for each category of the TCFD (Task Force on Climate-Related Financial Disclosures) at company level, and can be adjusted to reflect additional information available to the ESG analysts as appropriate.

**Carbon Intensity:** The carbon intensity of a company is calculated as the ratio between the volume of greenhouse gas (GHG) emissions of the company in tonnes of CO2eq and the turnover.

**Carbon footprint:** Aggregate emissions from the issuer for scopes 1 and 2 per million euros of enterprise value. Emissions data represents the final value revised and approved by ISS based on available sources.

**Cleantech – Carbon / "green" energy solution providers:** Companies specializing in clean technologies, generally producers of renewable energy or renewable equipment or companies financing this equipment.

**Companies in transition:** Companies offering, in our opinion, a very strong potential in terms of carbon reduction.

**Companies facilitating the transition:** Companies providing the necessary resources for carbon reduction strategies.

## DISCLAIMER

*Disclaimer: Simplified and non-contractual document.*

*The information contained in this document (themes, investment process, portfolio holdings, etc.) is valid on the date indicated but is subject to change. No reference to a ranking rating or award constitutes a guarantee of future results and is not constant over time.*

*The country of origin of the fund is Luxembourg. The information contained in this document does not constitute an offer or solicitation to invest, nor does it constitute investment advice, a recommendation on specific investments or legal advice. The figures are not contractually binding and are subject to change.*

*Information on the fund, including performance calculations and other data, is provided by the management company at the date of the document. These performances do not take into account fees and expenses relating to the issue and redemption of units or taxes. The value of investments and the income derived from them may go down as well as up and the investor may not get back the full amount originally invested. Changes in exchange rates may also affect the value of the investment. For this reason, and given the initial charges usually levied, an investment is not generally suitable as a short-term investment. Fees and expenses have an adverse effect on the fund's performance.*

*Past performance is no guarantee of future performance and is not constant over time. Investing in a UCI can be risky, the investor may not get back the money invested. If you wish to invest, a financial adviser will be able to help you assess the investment solutions that match your objectives, your knowledge and experience of the financial markets, your assets and your sensitivity to risk, and will also explain the potential risks.*

*The tax treatment of holding, acquiring or disposing of shares or units in a fund depends on the tax status or treatment specific to each investor and may be subject to change. Potential investors are strongly encouraged to seek advice from their own tax advisor.*

*Although every care has been taken in the preparation of this document, we make no representation or warranty of any kind, express or implied (including to third parties) as to the accuracy, reliability or completeness of the information contained herein. Any reliance placed on the information contained on this page shall be at the sole discretion of the recipient. This content does not provide sufficient information to support an investment decision.*

*The Key Information Document (KID), the management processes and the prospectus are available on the management company's website ([www.creditmutuel-am.eu](http://www.creditmutuel-am.eu)). The KID must be provided to the subscriber prior to each subscription.*

*Distribution of this document may be limited in certain countries. The UCI may not be marketed in all countries and the offer and sale of the UCI to certain types of investors may be restricted by the local regulatory authority.*

*This UCI may not be offered, sold, marketed or transferred in the United States (including its territories and possessions), nor may it directly or indirectly benefit a US natural or legal person, US citizens or a US Person.*

*This document may not be reproduced or used without the express authorisation of the management company. The names, logos or slogans identifying the management company's products or services are the exclusive property of the management company and may not be used in any way whatsoever without the prior written consent of the management company.*

*Manager: Current management team, subject to change with time.*

*SFDR Classification : The Sustainable Finance Disclosure Regulation aims to direct capital flows towards more responsible investments, to ensure transparency, consistency and quality of information for investors and thus to allow a comparison of the different investment vehicles. It applies to all financial market players but also to products.*

*3 categories of products:*

*1/ Automatically all funds are classified in Article 6, without sustainability objective.*

*2/ Article 8 applies for funds that promote ESG characteristics.*

*3/ Article 9 goes further, with a sustainable and measurable investment objective. That is, the funds invest in an activity that contributes to an environmental or social objective, such as reducing CO2 emissions or fighting inequality.*

*For more information on sustainability issues, please visit the management company's website ([www.creditmutuel-am.eu](http://www.creditmutuel-am.eu))*

## DEFINITIONS

*The synthetic risk indicator makes it possible to assess the level of risk of this product compared to others. It indicates the likelihood of this product incurring losses in the event of market developments or our inability to pay you.*

*Max. Drawdown: Historical maximum loss that would have been incurred by an investor who invested at the highest and exited at the lowest*

*The recovery is the time needed to recover the maximum loss (max drawdown).*

*The Sharpe Ratio measures the average return earned in excess in dependency of the risk relative to a benchmark (risk-free rate). For the assessment of this key figure, the attainable riskfree yield is subtracted from the yield actually earned. The result is divided by the risk that has been taken by the fund. A Sharpe Ratio > 1 indicates that an excess yield compared to the riskfree money market investment has been earned. At the same time, it shows the ratio of this excess yield to the risk taken. In reverse, a negative Sharpe Ratio (<0) illustrates that the money market interest rate has not been outperformed.*

*Information ratio: measure of outperformance or underperformance of the fund compared with its index, in consideration of the relative risk involved*

*Beta: measurement of the sensitivity of the fund's performance to the change in the performance of its benchmark*

*Alpha: measures the outperformance or underperformance of a fund compared with its index. The higher and more positive the alpha, the better the product and its manager*

*Equity exposure: more precise than the composition of the portfolio, it constantly takes into account ongoing transactions and in particular those carried out on derivative markets, which may increase or decrease management risks depending on market fluctuations.*
